

Introduction to Data Science

Course Policy

1. Makeup exams for Mid-sem and Final are given in extraordinary circumstances only. Students must consult with the instructor as soon as possible, preferably before the start of the exam. They have to follow the institute procedure also (for leave during mid-sem or final exams) at the same time.
2. No make-up will be given for missed quiz.
3. No surprise quizzes will be there for this course.
4. All exams are closed book exams unless otherwise mentioned explicitly by the instructors.
5. Written assignments / projects are to be submitted in time. Late submissions by one day will receive a 20% penalty. Submission beyond that will receive a heavy penalty or may not even be considered.
6. For projects you may consult with your friend or look for some Internet sources but strictly DO NOT COPY their works. It should be done on your own. If it comes to the notice that you had copied from some source then it is considered academic dishonesty and you will get a heavy penalty for the same.
7. For all exams of this course whatever the institute follows as policy will be the same for this course also.
8. All important communications related to the course will be through the Piazza classroom. Students should enrol themselves once they get the request and follow the page regularly for the discussion on the course.
9. Keep your conversation in Piazza to IDS course related discussion.
10. For projects either you may use Programming language R or Python. Both programming languages will not be taught as part of this course.
11. For grading and evaluation policy please refer to the CIF. Once Piazza page comes up all course related documents will be uploaded in Piazza.
